Customer Satisfaction

Complete satisfaction with your Honda Certified Pre-Owned Vehicle is our main goal. Personnel at authorized Honda dealerships are trained to provide the proper service for your vehicle. If you are not satisfied with any maintenance or repair work done by the dealership, your first recourse is to discuss your concerns with the dealer's Service Manager or General Manager. In most cases, you will be able to find a satisfactory solution within the dealership.

If you are not satisfied with your Honda dealer's decision, call **1-800-999-1009** or write to:

American Honda Motor Co., Inc.
Automobile Customer Service
1919 Torrance Boulevard
Mail Stop CHI-5
Torrance, CA 90501-2746

Please provide the following information:

- The vehicle owner's name and the vehicle's model, year, Vehicle Identification Number (VIN), and current mileage.
- The name of the dealer who sold you the vehicle.
- The name of the dealer who services your vehicle.
- Date, mileage, and reason for each visit to an authorized Honda dealership.
- Any non-Honda dealership repair service for the problem(s).
- Your daytime and evening telephone numbers.

Customer Satisfaction (cont.)

The staff of Honda Automobile Customer Service is interested in working with you and the dealership to find a satisfactory solution to your concerns.

If you disagree with the decision reached by the staff of Honda Automobile Customer Service, you may request to have your case reviewed in an independent forum run by the National Center for Dispute Settlement (NCDS). You may file a claim at any time by calling NCDS toll-free at 1-877-545-0055.

You may also write to:

National Center for Dispute Settlement
P.O. Box 515831
Dallas, TX 75251-5831

The purpose of NCDS is to resolve disputes between vehicle manufacturers and their customers. NCDS's decision-makers are impartial third parties who will listen to both the customer and the manufacturer and decide what can be done to resolve the disagreement. NCDS's decision is not binding on you unless you agree to accept it. If you accept the decision, Honda will abide by it. Generally, disputes submitted to NCDS are resolved within 40 days (47 days if you have not first contacted Honda about your complaint). Honda offers you the opportunity to mediate and arbitrate a disagreement through NCDS because we want you to feel that you have been treated fairly.

Eligibility is limited by your vehicle's age, mileage, and other factors. To file a claim, you need to provide your name and address, the Vehicle Identification Number (VIN), and a brief statement outlining the disagreement. Initially, NCDS may try to resolve the disagreement through mediation. If this is not successful, your complaint will be reviewed by an impartial arbitrator. You may present the facts of your case to the arbitrator at an informal meeting. We encourage you to use this program before or instead of going to court. It is informal, free of charge to you, and generally resolves problems much faster than the court system. Lawyers are usually not involved in the resolution of claims through NCDS, although you may obtain one at your own expense if you choose. If you choose to go to court, Honda does not require you to first file a claim with NCDS. Please note that laws in some states may require that you file a claim with NCDS before you can proceed to a state-operated dispute-resolution process or the court system. If you do not accept the decision of NCDS, you can still go to court.

Customer Satisfaction (cont.)

Some repairs may be covered beyond the Honda Certified Pre-Owned Vehicles Limited Warranty.

If your vehicle develops a problem you feel should be repaired by American Honda at no cost, discuss it with your dealer.

If you are not satisfied with your Honda dealer's decision, call or write Honda Automobile Customer Service at the aforementioned address (see page 3).

Please provide this information about your vehicle: year, model, Vehicle Identification Number (VIN), mileage, name of selling and servicing dealer(s), maintenance history, a detailed explanation of the problem, and why you think American Honda should be responsible for the repair. Please include your daytime and evening telephone numbers. Your request will be investigated, and you will be informed of American Honda's decision.

- If for any reason the vehicle's factory warranty has been voided by American Honda.

American Honda disclaims any responsibility for loss of time or use of the parts or the vehicle in which the parts are installed, transportation, or any other incidental or consequential damage. Any implied warranties—including the implied warranty of merchantability and fitness for a particular purpose—are limited to the duration of this written limited warranty. These limitations may not apply to the vehicle because some states do not allow limitations on how long an implied warranty lasts, or they may not allow exclusions or limitations of incidental or consequential damages.

American Honda will make the final decision whether to repair or replace any existing part or assembly. American Honda may use factory-remanufactured parts or parts of like kind and quality rather than new parts for some warranty repairs. What is Not Covered (cont.)

ADDITIONAL LIMITATIONS (CONT)

This Limited Warranty Does Not Cover Repair Costs:

- Once the aggregate of paid repair costs exceeds the price you paid for the vehicle, or for a specific claim that is greater than the applicable replacement cost of the vehicle as determined by American Honda.
- If you fail to provide verifiable maintenance records pertaining to covered parts that require routine maintenance and which sustain a mechanical breakdown.
- If the vehicle's odometer has been altered, disconnected, or is otherwise inoperable so that it is impossible to determine the vehicle's actual mileage.
- If at any time American Honda determines that the vehicle is being used for commercial purposes, including, but not limited to, deliveries, service calls, hauling, plowing, rental, carrying passengers for hire, law enforcement and fire, ambulance or emergency services, whether or not the vehicle is licensed for commercial purposes or registered to a corporation.
- If for any reason the vehicle's factory warranty has been voided by American Honda.

American Honda disclaims any responsibility for loss of time or use of the parts or the vehicle in which the parts are installed, transportation, or any other incidental or consequential damage. Any implied warranties—including the implied warranty of merchantability and fitness for a particular purpose—are limited to the duration of this written limited warranty. These limitations may not apply to the vehicle because some states do not allow limitations on how long an implied warranty lasts, or they may not allow exclusions or limitations of incidental or consequential damages.

American Honda will make the final decision whether to repair or replace any existing part or assembly. American Honda may use factory-remanufactured parts or parts of like kind and quality rather than new parts for some warranty repairs. The replaced or repaired parts are covered only until this HondaTrue Certified EV Pre-Owned Vehicles Limited Warranty expires. Parts replaced under this warranty become the property of American Honda.

This Limited Warranty gives you specific legal rights. You may also have other rights that vary from state to state.

Proper Operation

With proper use and regular maintenance, a Honda Certified Pre-Owned Vehicle can reward the owner with years of reliable service and low operating costs.

Proper operation means using the vehicle as it was intended. Honda passenger vehicles are designed to transport people and cargo on paved roads within the legal speed limit.

- Four-wheel-drive vehicles may be used off-road, but the driver must always use good judgment when determining appropriate speeds for the terrain and conditions.
- For Internal Combustion Engine (ICE), Honda vehicles require unleaded gasoline of the proper octane number (Anti-Knock Index). Always use unleaded gasoline of the proper octane number (Anti-Knock Index). See your vehicle's owner's manual for more information.
- Exceeding the vehicle's load limit (too much weight, either carried or towed) puts excess strain on the engine, brakes, and other components and should be avoided.

See the owner's manual for gasoline recommendations and where to find the load-limit label on each vehicle.

Maintenance

For ICE Honda vehicles, you should check the engine oil and radiator coolant levels each time you fill the gas tank. This protects the vital systems of your Honda and may help you discover potential problems.

Always maintain your Honda as suggested by the Maintenance Minder™ system (refer to your owner's manual). The services and mileage intervals suggested by the Maintenance Minder™ should never be exceeded; they are essential to trouble-free operation. Parts that fail due to improper maintenance are not covered by this Limited Warranty.

The Prologue is not equipped with the Maintenance Minder™ System and relies on the vehicle mileage or an alert by a "maintenance required" indicator to alert the driver for the proper maintenance intervals. Refer to the owner's manual for more details.

For Battery Electric Vehicles, always keep the tires properly inflated and the vehicle properly aligned.

Maintenance (cont.)

Additional maintenance may be required if you operate your vehicle under severe driving conditions. See your original owner's manual for the maintenance schedule for severe conditions.

Professionals at an authorized Honda dealer are fully trained and equipped to efficiently perform scheduled maintenance on your Honda. However, service at the dealer is not mandatory for continued warranty coverage.

If you regularly take your vehicle to an authorized Honda dealer for scheduled maintenance, the dealership will know its history if you need to make a warranty claim. If someone else has been performing the maintenance, the dealer may ask for evidence that you have properly maintained the vehicle. This evidence may consist of one or more of the following:

A Maintenance Record (such as the one in this booklet) showing the odometer mileage and date for each service. Each entry in this record should be signed by a person who is qualified to service motor vehicles.

Copies of repair orders or other receipts that include the odometer mileage and date that the vehicle was serviced. Each receipt should be signed by a qualified automotive service technician.

A statement that you completed the maintenance yourself, showing the odometer mileage and date you did the work. Receipts for the replacement parts (fluids, filters, etc.) should accompany this statement.

- **NOTE:** As a courtesy for the next owner, keep all maintenance receipts with the vehicle if it is sold.

How to Get Honda Certified Pre-Owned Vehicle Warranty Service & Towing

Warranty Service

For warranty service, you should take the vehicle (along with the Certified Warranty Card) to an authorized Honda dealer during normal business hours.

Towing

If the vehicle cannot be driven, you should contact the nearest Honda dealership to discuss towing options. Towing is covered if the breakdown is caused by a failure of a covered part (see *Emergency Roadside Assistance and Towing* on page 30).

Emergency or Component Repairs

Normally, you must take your vehicle to an authorized Honda dealer for warranty repairs.

American Honda recognizes that your vehicle could develop a serious problem and need immediate repair at a facility other than an authorized Honda dealer. Please contact Honda Care® at 1-800-999-5901 for Roadside Assistance, specific instructions, and authorization. American Honda will reimburse for repair(s) if all of the following conditions are met:

- The repair would normally be covered by this warranty.
- There were no authorized Honda dealers within 50 miles of the breakdown or local dealerships were closed at the time.
- The vehicle was immobile or attempting to drive would cause further damage or be unsafe.
- Prior authorization is required before any repairs are performed.

You must give authorization to the repair facility to diagnose a problem. American Honda will reimburse you for a repair that is determined to be covered by this Limited Warranty based on the following:

- American Honda will pay the reasonable cost of teardown as determined by American Honda.
- Parts will be reimbursed at American Honda's suggested retail prices.
- You will be reimbursed for labor at a geographically appropriate labor rate for Honda's recommended time allowance.

Any authorized Honda dealer can handle reimbursement for covered emergency repairs. Customers must show a copy of the paid receipt(s) and failed part(s) to your servicing Honda dealer Service Department. Your dealer will submit your claim for reimbursement to American Honda.

Traveling or Relocating Outside the United States

Vehicles purchased from an authorized Honda dealer in the U.S. are designed to meet U.S. federal and state government safety and emissions specifications. Other countries may have different standards.

Getting a U.S. vehicle serviced in another country may be difficult, even if taken to an authorized Honda dealer. These dealers may not have the parts suitable for a U.S. vehicle. The owner should keep in mind the following guidelines if there are plans to relocate or travel outside the United States:

Before departure, Honda's Automobile Customer Service is a key resource that can:

- Provide information on Honda distributors in the area that the owner plans on traveling to.
- Check the vehicle's history and inform the owner of any campaign or recall repairs that need to be completed.
- Provide a certification letter stating that the vehicle was manufactured to comply with all U.S. emissions and Federal Motor Vehicle Safety standards applicable to its model year.

If the owner is planning to take the Honda vehicle outside the U.S., they can:

- Contact the tourist bureaus in the areas where the owner will be traveling to find out about the availability of unleaded gasoline with a proper octane rating for the vehicle.
- If you (the owner) plan to export and register your Honda vehicle in another country, you should contact the vehicle-import agency in that country to determine requirements, as Honda does not have that information.
- If unleaded gasoline is not available, be aware that using leaded gasoline in your Honda will affect performance and fuel mileage and damage its emission controls. If the emission-control components are damaged and you return to the United States, your vehicle will not comply with applicable emissions regulations.
- To bring the vehicle back into the U.S., emission compliance requires the replacement of several components, such as the oxygen sensors and three-way catalytic converter. These replacements are not covered under this warranty.

Warranty Coverage Outside the United States

Honda vehicles registered in the U.S. and regularly driven in other countries are not covered by this Limited Warranty.

Honda dealers outside the U.S. will not honor this warranty. If you are traveling and have your Honda Certified Pre-Owned Vehicle repaired at a Honda dealer in another country, contact Honda Care® Customer Relations at 1-800-999-5901 for information on reimbursement for covered repairs.
